DIE TECHNOLOGY
HIGH PRECISION TO MANUFACTURING

HIGH QUALITY AND PRECISION SINCE 1988.

Who are we?

- Die Technology, Inc., designs and builds precision stamping dies, tools, and fixtures, along with providing jig grinding and wire machining services.
- Nanotech Precision, LLC, specializes in high-volume production of small and micro-sized instruments, electrodes, and components.
- We serve the medical device, electronic, automotive, and aerospace industries. Both companies strive for excellence in high precision and are cooperative partners in satisfying our customers' needs.
